Export CSV

Problem, Users, and Features

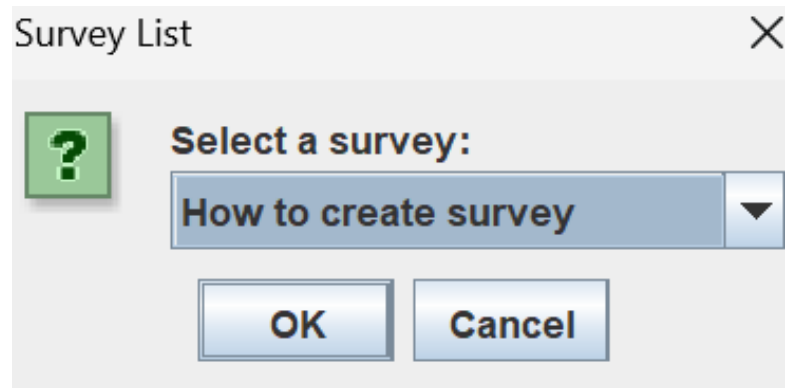

- Manual feedback collection is slow and hard to organize.
- This system is useful for instructors, student groups, and small organizations.
- The current version focuses on the most important survey tasks only.

Current implemented features

Create a survey title
Add open ended questions
Add multiple choice questions
Add yes/no questions
Take the survey anonymously
View saved responses
Export results to CSV

The screenshot shows a window titled "Input" with a close button (X) in the top right corner. On the left side, there is a green square icon containing a white question mark. To the right of this icon, the text "Enter survey title:" is displayed above a text input field. Below the input field, there are two buttons: "OK" and "Cancel".

Create Survey window

The screenshot shows a window titled "Survey List" with a close button (X) in the top right corner. On the left side, there is a green square icon containing a white question mark. To the right of this icon, the text "Select a survey:" is displayed above a dropdown menu. The dropdown menu currently shows the text "How to create survey" and has a downward-pointing arrow on its right side. Below the dropdown menu, there are two buttons: "OK" and "Cancel".

Completed Use Cases in the Demo

Use Case 1: Create a survey and save its title.

Use Case 2:

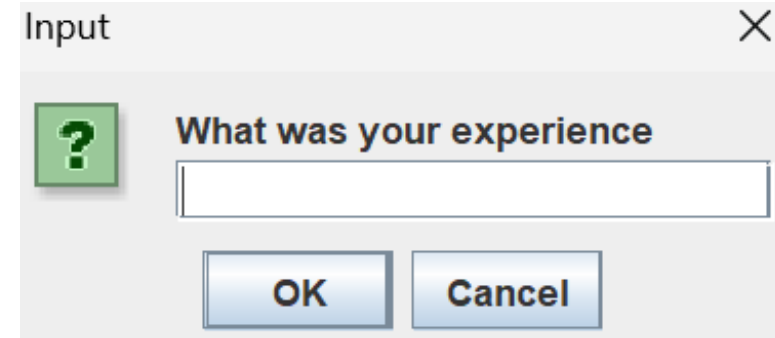

Add open ended, multiple choice, and yes/no questions to the survey.

Use Case 3:

Take the survey and submit an anonymous response.

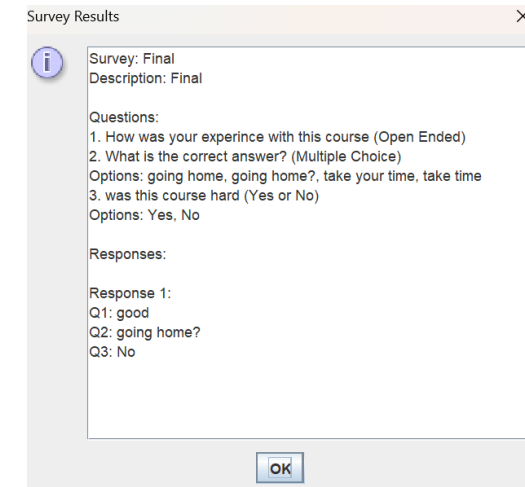

Use Case 4:

View stored results and export them to CSV.

The image shows a dialog box titled "Input" with a close button (X) in the top right corner. On the left side, there is a green square icon containing a white question mark. To the right of the icon, the text "What was your experience" is displayed in a bold, dark blue font. Below this text is a single-line text input field. At the bottom of the dialog, there are two buttons: "OK" and "Cancel", both with a blue gradient and white text.

Response entry screen

The image shows a window titled "Survey Results" with a close button (X) in the top right corner. On the left side, there is a blue circular icon with a white 'i'. To the right of the icon, the text "Survey: Final" and "Description: Final" is displayed. Below this, the text "Questions:" is followed by a list of three questions: "1. How was your experience with this course (Open Ended)", "2. What is the correct answer? (Multiple Choice)", and "3. was this course hard (Yes or No)". Below the questions, the text "Options: going home, going home?, take your time, take time" is displayed. Below the options, the text "Responses:" is followed by a list of three responses: "Response 1:", "Q1: good", "Q2: going home?", and "Q3: No". At the bottom of the window, there is an "OK" button with a blue gradient and white text.

Results window with saved answer

What Was Simplified to Keep Coding Basic

No login system or account management

No advanced user roles

Anonymous responses only

Only the core workflow is included in the current version

The current system now includes open ended, multiple choice, and yes/no questions

Why this helps

Still simple to use

More complete question options

More realistic final deliverable

Newly Added

Multiple choice options

Yes or no question types

Question Type

?

Choose the question type:

Open Ended

Multiple Choice

Yes or No

Stop Adding Questions

Final

Finished polishing the current survey workflow.
Improve usability and test the saved data flow.
Keep the project focused on stability instead of too many extra features.
Multiple choice and yes/no question types have now been added to make the final version more complete.

Final goal

A clean and working Online Survey System that can create a survey, collect responses, support different question types, show results, and export data.
